

Clarke-Washington Electric Membership Co-op

Levelized Billing Application

As a service to its members Clarke-Washington EMC is proud to offer a levelized bill program. This program will allow our members to pay a reduced amount during the high-use months by paying more during the low-use months. Our levelized billing program takes the previous 11 months bill amount and averages it with the current month bill amount. The customer does not pay the same amount each month, but the monthly bill amount will be close to the same from month to month (see the chart below).

The only requirements for an account on the levelized bill program are:

- To start the account must have a zero balance.
- Fill out the levelized billing application form.
- When the account is disconnected the final bill will be calculated on actual usage from the final reading of the meter.
- If an account is not paid by the start of the next billing cycle the account will automatically be removed from the levelized billing program.

Levelized Billing Application Form

Name (on the electric account) _____
Billing Address _____ _____
Clarke-Washington EMC Account Number _____
Telephone Number (Home) _____ (Work) _____
Signature _____ Date _____

The only requirements for an account on the levelized bill program are:
